NovaTech Systems

Q3 2026 shareholder letter

Reporting period: July 1 – September 30, 2026

NovaTech Systems delivered another quarter of disciplined growth while expanding the intelligence layer behind the world’s most resilient enterprises. Platform revenue grew 28% year over year, with Atlas Core, Vector AI, and Sentinel Grid contributing to a broader mix of multi-product deployments.

Highlights

- 99.99% platform availability across 65+ global regions.
- 2,400+ enterprise teams using NovaTech systems in production.
- 42% faster average time-to-insight for Atlas Core customers.
- Continued investment in trust, applied intelligence, and customer success.

Looking forward

We remain focused on making complex systems easier to understand and act on. Our next chapter is built around the same principle: the clearest signal should reach the right decision-maker at the right moment.
